

Società Cooperativa Sociale Il Ghetto

Integration project

Report of the activities

Basics: why we agreed?

The Ghetto's associates within the years have been working together at editing and managing various projects on a local, regional and communitarian level.

Within its social integration projects the Ghetto is partner of various intercultural projects and in particular is project planner of MEDEA- formation course for becoming cultural mediator. ILEX- project inherent to 'Equal Programme' for the development of 'an immigrant employment centre'

Since some time, in partnership with the Arcoiris onlus feminine culture association, It organizes activities involving women from 20 different countries with the object being the social integration of women in cagliari's social contest.

For these reasons, to agree in Integration project, was a big opportunity to improve our activities in the field of immigration, and, most of all, to know different approaches, share best practices, and to implement a new european network.

Our Team

According to the steps of the project, we work inside of the cooperative or had the help of experts and collaborators.

Differents were the competencies: social experts, experts in evaluating, experts in immigration and in public administration for immigration, translators and cultural mediators.

In the field of the project we had the opportunity to work with immigrants, especially women of Arcoiris Association, a local association wich works for cultural integration if immigrants in the sardinian society.

Evaluation of the project: ex post

At the end of the project, it was a big opportunity to improve our approach with immigrants and to suggest our approach to our partners, we insert the immigrants in our artistic and cultural activities and events so they learn our history and culture, so they feel more Italian.

Sharing best practices is the biggest result of the project, because it learns us different approaches and allows us to link our work with others, also using an internet platform.
